

Seven of Hearts features wines from distinct appellations within Oregon's Willamette Valley and neighboring regions, including specific vineyards and portions of vineyards that show unique characteristics. Using traditional winemaking methods, our goal is small production distinctive wines of purity, complexity, and elegance.

The label on the bottle, with its neo-classical elements, symbolizes our passion for the traditional old world style of Pinot noir.

We make wines from our estate vineyard under the Luminous Hills label, which is about that specific site. Seven of Hearts is about exploring other vineyards, other AVAs, and other varietals, including highly regarded and well-managed vineyards in the Willamette Valley AVAs of Eola-Amity Hills, Dundee Hills, Chahalem Mountains, and Ribbon Ridge. We are very fortunate to be working with growers from outstanding vineyard sites where great attention to detail and care is given to the fruit.

Varietals that are classically grown in the Rhône region of France are featured under the Chatte d'Avignon sub-label of Seven of Hearts: Viognier, Roussanne, Grenache, Syrah, and Mourvedre, and the GSM blend. Our new Chateau Figareaux line highlights the Bordeaux varietals Sauvignon Blanc, Cabernet Sauvignon, Merlot, Cabernet Franc, and our classic-style red blend called Tradition.

Bottling Date: January 2013

Cooperage: French Oak (25% New)

Alcohol: 12.5%, pH 3.682, TA 5.462

2011 was an exceptionally cool vintage, but one where long hang times achieved balance and vibrancy along with the elegance, complexity and expression of place that we cherish in our Oregon Pinot noirs. Our Willamette Valley blend is always about capturing the broadest expression of the different Pinot noir vineyards we work with. The 2011 vintage draws upon vineyards in the Eola-Amity Hills, Yamhill-Carlton District, Chehalem Mountains, Ribbon Ridge and Dundee Hills. The range of soils and the well-matched clones to each of these sites, coupled with traditional winemaking techniques of native yeast fermentation, selective whole cluster fermentation, and minimal additions, all contribute a broad palette of aromas, textures and flavors, spicy notes and layers of complexity.
