

Seven of Hearts features wines from distinct appellations within Oregon's Willamette Valley and neighboring regions, including specific vineyards and portions of vineyards that show unique characteristics. Using traditional winemaking methods, our goal is small production distinctive wines of purity, complexity, and elegance.

The label on the bottle, with its neo-classical elements, symbolizes our passion for the traditional old world style of Pinot noir.

We make wines from our estate vineyard under the Luminous Hills label, which is about that specific site. Seven of Hearts is about exploring other vineyards, other AVAs, and other varieties, including highly regarded and well-managed vineyards in the Willamette Valley AVAs of Eola-Amity Hills, Dundee Hills, Chahalem Mountains, and Ribbon Ridge. We are very fortunate to be working with growers from outstanding vineyard sites where great attention to detail and care is given to the fruit.

Varietals that are classically grown in the Rhône region of France are featured under the Chatte d'Avignon sub-label of Seven of Hearts: Viognier, Roussanne, Grenache, Syrah, and Mourvèdre, and the GSM blend. Our Chateau Figareaux line highlights the Bordeaux varieties Sauvignon Blanc, Cabernet Sauvignon, Merlot, Cabernet Franc, and our classic-style red blend called Tradition.

2012 PINOT NOIR

Durant Vineyard

Dundee Hills

Cases Produced: 112
Clones: Pommard, 114, 115
Soils: Jory Volcanic
Harvest Dates: November 17, 2012
Cooperage: French Oak (22% New)
56% whole cluster fermented
Alcohol: 13.0%
pH: 3.661
TA: 6.499

This is one of the oldest Willamette Valley vineyards we work with, including 41-year old Pommard from the Bishop block of the Durant vineyard, delivering round fleshy richness and pronounced fruit. That, along with 114 and 115 clones from the Lark block, which are co-fermented to fuse the elegance of the 114 with the spicy notes of the 115. 56% percent of the blend is co-fermented, providing an additional layer of complexity, and earthy spiciness. Typical of most of the Dundee Hills, these sites are on Jory volcanic soil, producing the classic elegant red fruit the area is known for.
