

Seven of Hearts features wines from distinct appellations within Oregon's Willamette Valley and neighboring regions, including specific vineyards and portions of vineyards that show unique characteristics. Using traditional winemaking methods, our goal is small production distinctive wines of purity, complexity, and elegance.

The label on the bottle, with its neo-classical elements, symbolizes our passion for the traditional old world style of Pinot noir.

We make wines from our estate vineyard under the Luminous Hills label, which is about that specific site. Seven of Hearts is about exploring other vineyards, other AVAs, and other varietals, including highly regarded and well-managed vineyards in the Willamette Valley AVAs of Eola-Amity Hills, Dundee Hills, Chahalem Mountains, and Ribbon Ridge. We are very fortunate to be working with growers from outstanding vineyard sites where great attention to detail and care is given to the fruit.

Varietals that are classically grown in the Rhône region of France are featured under the Chatte d'Avignon sub-label of Seven of Hearts: Viognier, Roussanne, Grenache, Syrah, and Mourvèdre, and the GSM blend. Our Chateau Figareaux line highlights the Bordeaux varietals Sauvignon Blanc, Cabernet Sauvignon, Merlot, Cabernet Franc, and our classic-style red blend called Tradition.

**2013 Chatte d'Avignon  
Grenache**

**Columbia Valley Washington**

Cases Produced: 55  
Varietals: 100% Grenache  
Source: Avery Vineyard  
Harvest Date: October 8, 2013  
Cooperage: French oak (neutral,  
as well as once and twice filled barrels)  
Alcohol: 14.5%  
pH: 3.355  
TA: 6.721

Always one of our favorites, but very small in production due to the significant contribution this lot makes to the GSM, this year's Grenache from the Avery Vineyard, along the banks of the Washington side of the Columbia River, takes on extra weight and heft without diminishing its characteristic ripe red fruit, crushed stones, saddle leather, white pepper and herbs. The 32-year-old vines continue to take on more complexity and site expression as they dig deeper into the gravelly sandy soils along the banks of the Columbia River.
